Current traction

Doble D — Investment platform where AI agents trade 24/7 under strict risk limits, with every trade visible to the client.

Status

Private, invite-only pilot. Working product in production with real user money; no regulatory license of its own yet.

Metrics

Indicator	Value	Source
Active users	~60	Menteia team
Funded accounts	95 (+9 in 30 days)	Public dashboard, 26-Oct-2026
Accounts in test mode	12	Public dashboard
Closed trades	483 (51% winners)	Public dashboard
Capital traded by the fleet	US$3,113 (15.7% of users)	Public dashboard
Gross return since inception	+0.7% in 24 days; max drawdown -55.3%	Public dashboard

Customers and pilots

- Invite-only retail users (Menteia community).

Milestones achieved

- Sep-2026: brand and website launch.
- Oct-2026: agent fleet trading user capital; legal and risk-disclosure pages published.
- Payment integrations (SPEI, Mercado Pago, USDC) and KYC in production.

Evidence available for due diligence

- Public results dashboard (/resultados).
- Trade log and ledger.
- Legal pages: terms, privacy, risk disclosure, fee rules.

To be documented before pitching

- Reconcile the user count (60 active vs 95 funded).
- Remove hypothetical return scenarios (+856% / +76,613%) and the US$50 M target valuation from the website before showing it to funds.
- Legal opinion on the applicable regulatory license (investment adviser, ITF, virtual assets, AML).
- Build at least 90 days of history for Sharpe/Sortino and reduce max drawdown.
