Current traction

SinHumanos — Platform for companies to adopt AI: skills (executable knowledge) and agents that do the work connected to their tools, plus computer vision and chat with data.

Status

Private beta. No round or valuation of its own in this document.

Metrics

Indicator	Value	Source
Stage	Private beta with a waitlist	Public website
Public price	From US$25 / month per agent	Public website
Users and agents deployed	To be documented	Pending

Customers and pilots

- To be documented.

Milestones achieved

- Website and waitlist launch.
- Live demos of agents, computer vision and chat with data.

Evidence available for due diligence

- Public website sinhumanos.com.

To be documented before pitching

- Document waitlist users and first agents deployed.
- Decide whether it will have its own round later.
